Outline

2 Vision, mission, goals and target
  - Vision
  - Mission
  - Goal
  - Why should I join?
Principles

- KDE wants to embrace the future. Free Software is not only about unpaid volunteer contributors anymore.
- How we relate with organizations will have a relevant impact in our future.
- We pretend to lay that relation in our strengths and principles, keeping KDE Identity.
- Current relation between organizations and Free Software Communities should be improved.
- It is our responsibility to establish the best conditions for that relation to grow healthy.

   - Mission
   - Goal
   - Why should I join?
Mission

KDE pretends to:

1. Build a thriving network of organizations working closely with KDE and KDE partners.
2. Continuously increase the value of this network.
3. Realize that value in the form of funding for KDE e.V.
Outline

2. Vision, mission, goals and target
   - Vision
   - Mission
   - Goal
   - Why should I join?
Major goal

Define and develop the actions needed to build a network of organizations, creating the conditions that allow it to evolve into a complementary ecosystem around KDE.
Outline

2 Vision, mission, goals and target
   - Vision
   - Mission
   - Goal
   - Why should I join?
KDE Connect initially have for three groups of organizations as targets:

- Corporations, companies and professionals
- Education institutions, colleges, and other edu oriented entities.
- NGO, R&D institutions and other non profits
Why become a Participant/Member? I

Because KDE Connect:

- **Is global**: contact organizations from all over the world.
- **Generates new opportunities**: generate win-win relations with other organizations.
- **Promote and improve your Free Software Business Model**: share your experience and learn from success stories.
- **Complements your partnership strategy**: get access to possible partners.
Why become a Participant/Member? II

- **Is an efficient interface with a mature Free Software Community**: establish relations within an innovative and reputed ecosystem.
- **Is an open door to new markets**: participate with KDE in events around the globe.
- **Is a easy way to meet talent**: become part of a great learning environment.

   ■ Networking activities
   ■ KDE Connect structure
   ■ How to apply
   ■ Roles and Team
KDE Connect is a structured networking program with global potential that helps organizations improve their results and expand markets.
KDE role in KDE Connect

KDE play the following roles:

- KDE Connect organizer, assigning experienced professionals, giving legal structure and technical support, among other resources.
- Interactions between Participants and Members promoter, through the design and development of different networking activities.
- Catalyst during the identification and definition of new opportunities process that will be developed by Participants and Members on their own.

- Roles and Team
Networking activities

- On-line activities through different channels.
- Face to face activities in events and sprints.
- Other activities: suggested by participants or KDE Connect Team
On-line activities

- Introductory activities.
- Developed through KDE channels.
- Designed to generate interactions among organizations.
Face to face activities

- Organized in KDE events and where KDE has presence.
- Classic networking activities: lightning talks, speed business dates, round tables, etc.
- Prepared through previous on-line activities. Different topics and goals, defined by Members.

KDE Connect: a structured networking program

KDE Connect is initially structured in three subprograms
- KDE Connect Participant.
- KDE Connect Member.
- Patron Forum.
KDE Connect Participant

- Entry level program.
- Designed to evaluate the potential of KDE Connect for your organization.
- 6 month program: Two editions per year.
- On-line networking program.
KDE Connect Member

- Designed to identify, define and explore new opportunities with other Members.
- 1 year program: natural years.
- On-line and face to face networking program. Initially in KDE events or those where KDE have strong presence.
Patron Forum

- Institutional, not networking oriented, program.
- Coordinated by KDE eV Board.
- Patrons as key elements and tractors of our network.
- Currently running.

Conclusions

- By creating this new interface, KDE intends to establish a symbiosis with organizations around the world.
- KDE Connect is a key element in KDE strategic plan.
- We understand it will only succeed if it is beneficial for both the organization involved and KDE.
- As relevant side effect, we intend to establish stable relationships with participants beyond KDE Connect.
- KDE Connect represents both a challenge and a great opportunity. Analysis and feedback from organizations involved will be welcome. Be active.
